# Overview

## Custom Designed Privacy for any Workspace

Build the perfect private space with our Freestanding Screen system. Choose from multiple heights and finish combinations created to fit your needs. Our available finish options will let you create everything from frosted tall screens for extra privacy to mobile whiteboards for increased productivity.

## Key Freestanding Screen Features:

- Aluminum interlocking modular frames
- Mobile casters for increased versatility
- Multiple height options
- Panel segmentation for increased customization
- Finishes designed for privacy and productivity

## Available Widths

24” 30” 36” 48” 60” 72”

## Available Heights

14”, 18”, 24” 53” 67” 78”

## Frame Finish

Satin Silver

## Base Options

T-Style w/ Glides
T-Style w/ Casters
Half-Circle w/ Glides
Desk Clamp
Single Glide

# Aesthetic Privacy

Designed by you, for you

# Practical Design

## Mobile and Modular

Our standard Freestanding Screens with casters make it easy to create small office spaces or isolate areas, then re-arrange without additional installation costs. Freestanding Screens are flexible to provide privacy or build new office environments as companies adapt and grow.

## Endless Customization

No matter the size, our standard Freestanding Screens are designed to accommodate any environment. The modular aluminum frame makes it simple to size screens anywhere from 24” to 72” wide at 53” to 78” high. Dividers are available as well to allow for even more choices for each screen.

# Attaching to Workstations

## Privatize Existing Spaces

Need your Freestanding Screens to cover your work surfaces too? Our compatible Desk Screens can enclose your current office furniture and also connect to our Freestanding Screens! Attach them to your current work surfaces or create a Freestanding to Desk Screen combo for increased privacy. All of our desk screens are made from the same materials and available with the same finishes as our freestanding screens.

Desk screens mounted to surfaces via clamps

Desk screens combined with Freestanding Screens

## Make the most out of your area

Designed as a retro-fit solution, these desk screens can run standalone on your current work surfaces with clamps or be combined with our Freestanding Screens for even more coverage options.

# Useful Outside the Office

## Great for multiple business applications

With multiple finish and base options, our Freestanding Screens can be customized for workplaces outside the office. Larger sizes can be used to section off areas from restaurants to fitness centers. Create clear and frosted barriers for safety or use your PET options for increased sound absorption. These lightweight screens can easily be moved around to section off areas in minutes.

# Configurations

## Create the Perfect Combination

Our Freestanding Screens and Desk screens are available in a wide variety of sizes and configurations. Each screen can be divided into sections with different materials designed to suit your office needs. Mix and match your favorite combination of styles and finishes!

## Desk Screen Options

**SINGLE (S)**

Heights
14, 18, 24

Widths
24, 30, 36, 48

**2-WIDE (D)**

Heights
14, 18, 24

Widths
60, 72

### Connect Screens Together

All screen options are available as add-on screens **(add -A to any screen SKU to make it an add-on screen)**. All add-on screens connect to the existing post on a full screen.
